

## Product Data

# DAUNTLESS

**Chain & Cable Lubricant  
with Moly and Teflon®**

### For Use On:

- Chains
- Cables
- Wire Ropes
- Sprockets
- Drive Chains
- Hoist Chains
- Drag Chains
- Conveyor Chains

- ✓ Reduces Metal-To-Metal Contact and Friction
- ✓ Water, Acid and Solvent Resistant
- ✓ Special Valve - Pin Point Accuracy
- ✓ Contains No CFC's or Ozone Depleters

...setting performance  
standards worldwide...

## APPLICATIONS

DAUNTLESS is an outstanding, full-service, multiple-application, chain and cable lubricant. Fortified with both molybdenum disulfide and Teflon®, the formula will provide superior lubricity, protection and longevity. Use this product on chains, cables, wire ropes, sprockets, drive chains, hoist chains, drag chains and conveyor chains to prevent metal to metal contact and reduce friction, heat, stress and wear during operation. Very water and acid resistant. In addition, the special aerosol valving system allows for precise control of material delivery with minimal splashing and/or overspray. This next generation product is formulated without chlorinated solvents or ozone depleters.

## DIRECTIONS

Shake well before using. Always hold can upside down and spray for two seconds after each use to prevent spray tip from clogging. Hold can 6-10 inches from surface to be lubricated and spray liberally. For hard-to-reach areas, insert extension tube provided.

## TECHNICAL DATA

<b>Composition:</b>	Petroleum distillates, oils, and isobutane/propane blend
<b>Type:</b>	Aerosol chain & cable lubricant
<b>Specific Gravity:</b>	0.90
<b>Flammability:</b>	Flammable as per USA Flame Projection Test
<b>Vapor Pressure, @ 70°F:</b>	Max 60 PSIG
<b>Spray Pattern:</b>	Heavy mist
<b>Appearance:</b>	Thick silver liquid
