APPLICATIONS

FAST FREDDIE is the ultimate solution to your general cleaning problems. This all-purpose enzyme cleaner removes the most stubborn stains and soap film on walls, floors, bathtubs and tile surfaces. This multiple acting biological cleaner and deodorizer may be used without rinsing. FAST FREDDIE is formulated with biodegradable surfactants and degreasers to safely clean without petroleum solvents, harsh caustics, or toxic chemicals. FAST FREDDIE renders grease, oils, soap films and stubborn soils and stains water soluble with a unique blend of detergents and biological enzymes that are readily biodegradable.

FAST FREDDIE is an outstanding general purpose cleaner for washable and painted surfaces and window sills. It is unexcelled for cleaning porcelain and tile surfaces such as bathtubs, wash bowls, toilet bowls, kitchen sinks, cabinets, stoves and refrigerators. It is an excellent product for quickly removing dirty hand prints from walls and doors, scuff marks from floors, crayon marks, grease spots, soot and smoke film.

FAST FREDDIE is used by factories, trucking companies, schools, office buildings, industrial plants, highway departments, on farm and road equipment, by maintenance operations, and in institutions, municipalities, and printing plants.

For Use On: clothes, carpet, upholstery, floors, walls, grease traps, drains, showers and shower curtains, urinals, toilets, sinks, cement, driveways, ovens and oven hoods, grout, tile, grills, kitchen cabinets, sidewalks, A/C drip pans, refrigerators, dumpsters and loading docks.

DIRECTIONS

Spray areas to be cleaned with FAST FREDDIE and wipe with sponge or damp cloth. For tough stains from grease and mold and mildew, allow FAST FREDDIE to stand 2-5 minutes before wiping surface.
