APPLICATIONS

REPULSE is a combination of two insecticides offering quick knock down of flying insects and residual kill of crawling insect for up to 6 weeks. REPULSE is designed for commercial/agricultural use in non-food areas of industrial and institutional buildings, including warehouses, homes, schools, office buildings, theaters, garages, hotels, motels, etc.

DIRECTIONS

Shake well before use. Remove protective cap. Aim spray opening away from person. Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use on serving areas while food is exposed or facility is in operations or serving areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. Nonfood areas where the product can be used are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning and bottling). Do not use in rooms/ areas while occupied by patients, the elderly or infirm. Do not apply to classrooms when in use.

INDOOR USES

For residual and contact control of:

Cluster Flies, House Flies, Fruit Flies, Mosquitoes, Gnats and Small Flying Moths. **COCKROACHES, PALMETTO BUGS, SILVERFISH, FIREBRATS, CRICKETS, SCORPIONS, SPIDERS, MILLIPEDES, CENTIPEDES, SOWBUGS AND PILLBUGS:** Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible. Repeat treatment as necessary.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

FLYING INSECTS: Cluster Flies, House Flies, Fruit Flies, Mosquitoes, Gnats and Small Flying Moths. Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room, moving toward the door. Direct spray to all parts of room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Leave room and keep area closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects. Repeat treatment as necessary.

FLEAS IN BUILDINGS - SPACE SPRAY: Hold can 36 inches above floor and direct spray toward floor and lower walls at a rate of 10 seconds per 100 sq. ft., making sure that all floor, sofa and chair surfaces are contacted. Leave room and keep area closed for 15 minutes. Open and

ventilate before reoccupying. Repeat treatment after 7 days or as needed.

TO KILL LICE AND LOUSE EGGS: Spray in an inconspicuous areas to test for possible staining or discoloration. Inspect again after drying, then proceed to spray entire area to be treated. Hold container upright with nozzle away from you. Depress valve and spray from a distance of 8 to 10 inches. Spray each square foot for three seconds. Spray only those garments and parts of bedding, including mattresses and furniture, that can not be either laundered or dry cleaned. Allow all sprayed articles to dry thoroughly before use.

OUTDOOR USES

FLYING INSECTS: Flies, Mosquitoes, Gnats, and Small Flying Moths. Allow fog to drift over area. Direct spray toward bushes or grass at least 4 to 6 feet away. Give special attention to breeding areas such as garbage cans and compost pillars. Repeat as necessary.

CRAWLING INSECTS: Ants, Cockroaches, Crickets, Centipedes, and Silverfish. Spray infested surface of patio or picnic areas, hitting as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

TECHNICAL DATA

Composition:	Dual action pesticide
Type:	Broad spectrum
Toxicity:	Low
Flammability:	None
Color:	Yellow
Odor:	Slight insecticide
VOC:	Low

APPROVALS

REPULSE is USDA acceptable (F2) as a residual pesticide for use in inedible product areas of official establishments operating under the Federal meat, poultry, shell egg grading and egg products inspection programs.
