# SUDDEN DEATH

## Crawling Insect Killer

### For The Control Of:

- Cockroaches
- Ants
- Silverfish
- Spiders
- Scorpions
- Fleas
- Ticks
- Crickets
- Carpet Beetles
- Centipedes
- Moths
- Many Other  
Crawling Insects

SUDDEN DEATH is a totally unique solvent-based formulation which utilizes a Tetramethrin, Permethrin and Piperonyl Butoxide mixture to effectively kill and control a broad range of crawling insects. A combination of professional strength, high-power solvent and a powerful insecticide concentrate help this spray penetrate insect exoskeletons and deliver active killing ingredients directly to the insect's nervous system. SUDDEN DEATH features a non-flammable spray and has no unpleasant odor. It provides up to a 4-week residual kill, and its pencil-thin spray aids in treating around windows, doors, cracks, crevices and in other hard to reach areas.

- ✓ Fast Knockdown and Kill
- ✓ Up To 4-Week Residual Action
- ✓ Non-Flammable Spray
- ✓ Contains No Chlorinated Solvents
- ✓ VOC Compliant
- ✓ Virtually Odorless

## APPLICATIONS

SUDDEN DEATH is a crawling insect killer that is highly effective against the following insects: ants, bees, carpenter ants, carpet beetles, centipedes, cockroaches, crickets, fleas, grain beetles, millipedes, moths, scorpions, silverfish, spiders, ticks and many other crawling insects.

## DIRECTIONS

Remove protective cap, hold container upright and direct spray away from face. Press valve down and spray as directed. Spray surface until slightly wet at a rate of 4 ounces product to treat approximately 25 square feet of surface area. Do not use in rooms/areas while occupied by patients, the elderly or infirm. Do not apply to classrooms when in use. Do not use in commercial food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation.

### Non-Food Areas:

May be used as a crack and crevice treatment or as a spot application in non-food areas. All areas where insects hide or through which insects may enter should be treated. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

### Indoors:

**COCKROACHES, ANTS, CENTIPEDES, CRICKETS, FLEAS, PALMETTO BUGS, SILVERFISH, TICKS and WATERBUGS:** Spray into hiding areas, such as cracks and crevices, behind sinks and cabinets, along baseboards and floors and around drains and plumbing, hitting insects with spray whenever possible.

**ANTS:** Spray freely around ant trails, doors and windows and other places where ants enter premises. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray freely on and around debris.

**SPIDERS:** Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these insects may crawl. If infestation reappears, repeat treatment, but not more than once a week and no more than twelve times per year.

### Outdoors

**ANTS COCKROACHES CRICKETS and CENTIPEDES:** Spray infested surface of patio or picnic area, hitting as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

**PESTS ON OUTSIDE SURFACES OF BUILDINGS:** For control of building infestations due to Ants, Clover Mites, Crickets, Earwigs, Millipedes, and (Pillbugs). Spray foundation of building where insects are active and may find entrance, up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. If infestation reappears repeat treatment but not more than once a week and no more than twelve times per year.

## TECHNICAL DATA

<b>Appearance:</b>	Pale yellow liquid
<b>Odor:</b>	Minimal odor
<b>Flammability:</b>	Non-flammable spray
<b>Specific Gravity (Concentrate):</b>	0.785

### ACTIVE INGREDIENTS

Tetramethrin .....	0.150%
Permethrin .....	0.375%
Piperonyl Butoxide Technical .....	0.750%
<b>*INERT INGREDIENTS</b> .....	98.725%
<b>TOTAL</b> .....	100.000%

\*Contains Petroleum Distillates.
